

SC-04165/57

Copy 3 of 3

19 July 1957

MEMORANDUM FOR: Assistant Director for Scientific
Intelligence

SUBJECT: The Attached Paper

25X1A9a

25X1A9a

1. Shortly after talking with you today, [REDACTED] of OCI came to my office with the attached paper which I think you and [REDACTED] will want to read. I think John is doing, in the System Three field, the sort of thing that I spoke of on the phone as being necessary. I am writing a memorandum to NSA in accordance with John's suggestion in paragraph 5.

2. When we get around to canvassing a System One exploitation field as we discussed, we may wish to explore whether anything new and useful can be developed bearing upon his paragraph 2 f, to wit, a relation of ELINT and COMINT analysis.

[REDACTED]
JAMES Q. REBER
Office of the Director
Planning and Coordination Staff
